

News from the Lunchroom

Welcome back Falcons! We are excited to share with you that our Food Service Operation will be in full gear this year. There have been many changes pertaining to how and where we will be providing meals to your kids, all with their safety being our number one priority.

We are working diligently with The Kent County Health Department and The Michigan Department of Education School Nutrition to provide your child/children with the healthiest food in the safest way possible.

There will be more information coming as we get closer to the first day of classes, but because of these challenging times we are encouraging all families to fill out an application for meals. This can be found on the West Catholic website under “dining service,” linked [HERE](#). You can email the completed application and “shared info” to me at: maryjojones@grwestcatholic.org or you can drop it off in the Main office in a sealed envelope. Please include all pages of the application.

Meals will be available to all students, including pickup for virtual learners. We will share details regarding that process as they are made available. Be on the lookout for our August menus with more information on our other meal opportunities!

We look forward to seeing and feeding all of our students! Please feel free to contact me with any questions or concerns you may have.

Mary Jo Jones
Food Service Director
